SUMMARY

I am a Web UI Developer who, after an education in psychology and art history, got side-tracked working in government security and law. I left in order to pursue a career more aligned with my passion for creativity, technology, and human interactions. I love making the internet both beautiful and enjoyable to use.

TECHNICAL SKILLS

HTML5 - CSS3 - Sass - jQuery - Sublime
Glt/GitHub - JavaScript - Responsive Web Design
Grid Systems - Adobe Creative Suite

PROJECTS

Sparcify - a dating web app. Worked in an Angular and Node.js environment to design and develop the front-end of the app using CSS and HTML while collaborating with the back-end to ensure functionality and a great user experience. github.com/SparcifyCodeFellows/sparcify

Know-Your-Chicken - a site providing information on various qualities of chicken and egg products (i.e., sustainability, humane treatment, and GMOs). Worked in a team of three to collaborate on design and function of the site using HTML, CSS, and JavaScript. github.com/satuba/-know-your-chicken

Ann Reid's Art - a site displaying the art of Ann Reid. I built this site independently using HTML, CSS, and some JavaScript to beautifully and simplistically display her artwork. annreidart.com
